

BARRENNESS/PROSPECTIVE FOAL INSURANCE
(For attachment to L.E. (U.S.A.) Equine Insurance)

In respect of Proposed Service by to during the 2002 Breeding Season.

This policy to pay as a result of:

- A. The scheduled Mare failing to produce a single live foal in 2003 from service or attempted service by the above named Stallion between 15th February and 15th July 2002. Warranted an attempt is made to breed the mare in at least three oestrus cycles (including the foal heat).
- B. Failure of the scheduled Mare to produce a live Prospective Foal, for any reason except as excluded below.
- C. Death of the Prospective Foal up to 30 days after birth 2002 including loss of the foal due to death of the mare.

EXCLUSIONS

Failure of the scheduled Mare to conceive or failure of the Prospective Foal to be born alive or to survive after its birth will not be covered when it results directly or indirectly from any of the Following:

- A. Intentional destruction of the scheduled Mare or Prospective Foal except for Humane Destruction in accordance with the policy conditions to which this wording attaches.
- B. Intentional abortion of the fetus unless such abortion is deemed imperative by an appointed Veterinary Surgeon in order to save the life of the Mare or unless the Mare has a multiple pregnancy.
- C. Malicious, willful, or intentional acts or omissions by the Assured, his agents, Employees, or bailees, or failure to provide proper care and attention in accordance With the policy conditions to which this wording attaches.

A claim resulting from the scheduled Mare being barren or loss of the foal is to be substantiated by either:

- I. A manual test performed by a qualified Veterinary Surgeon on or after 25 days after last service and on a certificate issued by him to the effect that the Mare is barren.

Or

- II. A certificate issued by a qualified Veterinary Surgeon to the effect that the Mare has either slipped her Foal or has produced a Foal which failed to live 30 days after birth.
